THE OPINION ON THE CHANGE OF GUAGE OF THE N. C. R. R.—The following opinion, rendered by the Supreme Court on Thursday, is one of the most important decisions that has been rendered by that body during the present session:

The State of North Carolina vs. The Richmond and Danville Railroad

Company : On the 11th day of September, 1871, the North Carolina Railroad Com-pany leased its road to the Richmond & Danville Railroad Company, for the term of thirty years, with leave to change the guage of the said Railroad track, upon condition that if the lessees did change the guage, they should change it back, to what it is now, at the termination of the said lease, if required so to do by the

essers. This action involves the termination of two questions:
1st. Is the lease valid?

2nd. Is there anything in the law, or public policy of North Carolina, which forbids a change of guage? We have had the benefit of able and elaborate arguments upon the questions presented, but I may remark here, that most of the authorities cited have no application to the case at bar, for the reason that the questions here involved are to be determined by a construction of the charter of the North Carolina Railroad Company, and our general legis-

lation on the subject of railroads. These questions necessarily depend upon our statutes, and of course, cases determined upon other and different statutes, can afford but little assistance in reaching a proper conclusion. In most instances they only tend to confuse. We admit the proposition in its broadest sense, that the lease is void, unless it be sanctioned by the legislation of both North Carolina and Virginia. The charter of the North Carolina Railroad Company is one of the most liberal ever granted in this State. We will not attempt to enumerate the privileges and powers conferred by it, further than to say that the Company was authorized to construct a railroad, with one or more tracks, with-out restriction as to guage, and that they are expressly authorized, when-ever they see fit, to farm out their right of transportation over said rail-road and the rights and duties of road, and the rights and duties of their lesses are further recognized, defined, and placed upon an equality with themselves, by enacting that said Company, and every person who have received from them the right of transportation of goods, wares and produce on the said railroad, shall be deemed and taken to be a common earrier, as respects all goods, wares, produce and merchandise, entrusted to them for transportation. This is

road, whenever they see fit to do so, for we see no reason why a forced construction should be put upon the words "farm out," in order to divest meaning, which is in their connection, to lease. Can any reason be suggested why the power to lease should not have been conferred upon the Company, since by the general law of the State the whole road, with its franchise and all the rights and privileges

thereof, together with all its corpo-

rate property, real and personal,

might have been sold under execu-

an express grant of power, from the State to the Company, to lease their

tion, for debt, and conveyed by deed to the highest bidder? Revised Code, ch. 26, sec.9, et seq. This legislation taken in connection with the Act of 1871-'72, chapter 138. known as the free railroad law, under which railroads may be constructed any where in North Carolina, and roads, as well those already built as those to be constructed, are authorized to consolidate with other connecting roads, whether in or out of the State, shows conclusively that there is no policy in North Carolina which forbids the contract that has been entered into by these two companies. It is conceded that the Legislature of Virginia has authorized the Richmond and Danville Railroad Company to take this lease by an Act passed on the 15th day of February, 1866, entitled "An Act to authorize the Richmond and Danville Railroad Company to lease. hold and operate the Piedmont Railroad," and by an act amendatory of the above recited Act, approved July 11th, 1870. Since then the contract of lease is authorized by the legislation of both States; there is no foundation upon which the further objection that the Richmond and Danville Railroad Company is a foreign corporation, can rest. There is no wall around North Carolina to exclude foreign corporations from en-tering the State, and doing business here. On the contrary, it has been our policy to invite them in. This is abundantly evidenced by the presence for years in our midst of almost every conceivable form of foreign corporations. The rights of express, telegraph, insurance, mia-

ing, manufacturing and railroad companies from other States are daily recognized in our courts, and by our Legislature, which has heretofore welcomed them, not only as profitable sources of revenue, but more especially as useful agents in develop-

ing the wealth and resources of the It appears from the exhibits in this action, and it is also a matter of history, that the Richmond and Danville Railroad Company has been since 1866 without objection, controlling and operating the Piedmont Rail-road, nearly all of which lies in this State. Whatever may have once been thought of the policy of excluding foreign corporations, the increase ing demands of commerce have liberalized our ideas on the subject, and taught us to open our doors to all persons, natural and artificial, who

wish to engage in honest business This spirit of liberality is called the comity of nations, and it generally keeps pace with the civilization of a State, being recognized where wealth and intelligence characterize a people, and denied in barbarous countries. Since the decision of the Supreme Court of the United States in the Bank of Augusta vs Earle, 13 in the Bank of Augusta vs Earle, 13
Pet. 519, this comity of nations has been accepted in its most liberal sense, by the States of this Union. In that case Taney, C. J., delivering the opinion of the court, says: "The comity thus extended to other nations is no impeachment of sovereignty, It is the voluntary act of the University is the special order Monday in the House,

the nation by which it is offered, and is inadmissible when contrary to its policy or prejudicial to its interest. But it contributes so largely to promote justice between individual, and to produce a friendly intercourse between the sovereignties to which they belong that courts of justice have continually acted upon it as a part of the voluntary law of nations," And he quotes with approbation the following passage from Story's conflict of laws: "In the silence of any positive rule, affirming, or denying, or restraining the operation of foreign laws, Courts of Justice presume the tacit adoption of them by their own government, unless they are repugnant to its policy or prejudicial to its interests." In the same opinion it is said, "the intermate union of these States, as members of the same great political family; the deep and vital interests which bind them so closely together, should lead us, in the absence of proof to the contrary, to presume a greater degree of comity, and friendship, and kindness towards one another, than we should be authorized to presume between foreign nations." We now come to

be authorized to presume between foreign nations." We now come to

Is there any law or policy in North Carolina which forbids a change of guage? There is no restriction in the charter as to guage, but the com-pany was left free to adopt such guage as would best promote their interests. But it is said that as other roads have been required to adopt the guage of the North Carolina Railroad, that Company is not now at liberty to change its guage. Freedom to adopt any guage was the grant of the sovereign to the North Carolina Rail-road Company. How can that grant be revoked or qualified by provision in the charters of other roads; with which the North Carolina Railroad has no community of interests, and whose purposes may be antagonistic

the consideration of the second ques-

It is certainly a novel idea, that a charter without restriction, is to be subjected to all the burdens of other charters with restrictions. If we may impart this restriction into the free charter, what is to prevent us from imparting allother restrictions, in all other charters, which some one may imagine is in furtherance of a public

But what is to become of this supposed public policy, under the ope ration of the free railroad law, which allows any other roads to connect with the North Carolina Railroad at any point, and with any guage they

any point, and with any guage they may see proper to adopt.
Our conclusion is, that the North Carolina Railroad Company, not only had power, under their charter, to adopt originally such guage, as in their discretion, would best promote their interest, but that if in the course of time, another and a different guage either for the whole or only a por-tion of the Road, should be thought more advantageous, they were left free to change it at pleasure. We have seen that the North Carolina Railroad Company have leased their Road to another Company, with expressed permission to change the guage, if this other Company shall see proper to do so. This confers upon the lessee all the rights, in thi respect, which were possessed by the

And now the Richmond and Danville Railroad Company say that the demands of trade and travel require a change of guage on that portion of the road lying be tween Greensboro and Charlotte, in consequence of the connections North and South of those points haying a different guage from that now in use on the North Carolina Rail

Since the lease is valid, it is well that it clothes the lessee with large powers, such as to change shops, tracts, houses, &c.; for it is the interest of the public that a Company undertaking to meet the responsibilities of a common carrier should not be translated and ambarrased by rebe tramelled and embarrassed by re-strictions which would prevent them

rom properly executing their duties There was error in the order of in unction restraining the Richmond and Danville Railroad Compan from changing the guage of the North Carolina Railroad between Greens-boro and Charlotte, and the same is hereby dissolved. SETTLE, J.

CENTENNIAL OF THE MECKLEN BURG DECLARATION OF INDEPEND-ENCE.—In the Senate of the Tennessee Legislature, on the 4th inst. Mr. Polk, of Hardeman, introduced

the following resolution: "Whereas, on the 20th day of May, 1775, the people of Mecklenburg ounty, North Carolina, in conven tion assembled, declared their inde endence of Great Britain, and prolaimed to the world their intention of defending said independence with

their lives; and "Whereis, the State of North Caro lina proposes to celebrate the centen-nial of this declaration on the 20th of May proximo; and
"Whereas, the people of Tennes

may be necessary and proper to cele-brate an event so glorious to the fame of our common ancestry."
Mr. Polk supported the resolution in an eloquent speech, which is re-ported in the Nashville Union and American, in which he was seconded by Mr. Quarles, after which it was adopted unanimously and sent to the

House for concurrence, with the We are pleased to see our sister State joining hands with us in "our Centennial," and extend to Mr. Polk not only the thanks of the Hornet section but of the people of the whole State.

[SPECIAL TO THE DAILY NEWS.]

GREENSBORO, N. C., March 12. A. V. Sullivan, Esq., a highly respected citizen of High Point, shot himself through the head with a pistol this morning. His dead body was found in Barbee's mill-pond, one mile from town. From a letter left in his room, it is supposed that embarrassment in his pecuniary affairs was the cause. H.

Mr. Sullivan, prior to the administration of Maj. Wm. A. Smith as President, was the agent of the North Carolina Reilroad, and agent of the Southern Express Company in both of which capacities he was greatly esteemed by the public generally, and those whom he served. He was well and favorably known throughout that section of the State.—[ED. Name] VEWS.]

THE CONVENTION BILL PASSES THE CONVENTION BILL PASSES THE SENATE.—The Convention ques-tion, so far as the Senate is con-cerned, has now become a settled matter, that body, as will be seen by our Legislative reports, adopting the measure yesterday by a vote of 37 to 12, and the bill was ordered to be engrossed and sent to the House without delay. The bill was adopted as it came from the Committee on Constitutional Reform, the provi-sions of which we published a couple of days since. It will doubtless be read in the House to-day and be made special order for an early day next week. We can but express the hope that it will meet with the same success in the House that it has in the Senate, the measure now having re-

senate, the measure now having received the positive endorsement of the Democratic party.

The scene in the Senate pending the consideration of the question and during the voting was one of deep interest, the lobbies being crowded, and every member was in his seat except Senator Cooks, of Franklin except Senator Cooke, of Franklin, who was absent in attendance upon Franklin Court, returning to the city yesterday evening in answer to a telegram calling him to his seat in consequence of this question coming up. Mr. Cooke has been personally opposed to a Convention, but would have voted with the majority had he been present, and last night recorded his vote for Convention, thus making the present and last night recorded his vote for Convention, thus making the present and last night recorded his vote 28 to 18

ing the vote 38 to 12. Mr. Cantwell was the only Republican who voted for the measure, this having been his avowed purpose dur-

ing the entire session. SUPREME COURT OPINIONS .- The justices on yesterday, (Friday,) filed opinious in the following cases, which concludes the docket:

Mr. Mills opposed the amendment. This would deprive the Convention of performing the greatest benefit that we expected from it.

Mr. Williamson argued in favor of his motion. He thought it would strike a blow to the Democratic party; we could not with impunity denrive the people of their rights.

Were he free to act, he would go with his party as he had always done, although he was strongly opposed to the call of a Convention. He had told his people he would not yet for the measure, and would not vote for the measure, and he could not violate his pledge.

Mr. Busbee, in voting, said it was well known that he was personally

opposed to a call of a Convention, but he felt it his duty to act with the expressed will of a majority of the Mr. LeGrand explained that individually he was as much in favor of calling a Convention as any man in the hall, but representing a constituency that opposed a Convention, he felt compelled to carry out their wishes and vote against the measure; although, should the Convention be called, he would do his best to assist

Mr. Stickney said he came here opposed to a Convention, but having found the expressed will in favor of the measure, he would go with his party and vote in the affirmative. Upon motion of Mr. Erwin, the House agreed to meet in the after-noon of to-day in order to give the members an opportunity to accept the invitation of the Principal of the Deaf and Dumb and Blind Institution to attend an Exhibition and Concert at that Institution to-night. A bill amending section 2, chapter 35, Battle's Revisal, concerning adul-

tery of husband and wife, passed its final reading. Bill amending the charter of the North Carolina Railroad, as regards the construction bonds, providing for the transfer of the State's stock. The Finance Committee made a report, in which it was stated that there another bill for the purchase of the construction bonds by this Road, and that so much of the bill under consideration as was proper be incorpo-rated in it. substitute. The bill then passed its second reading.

Mr. Boyd offered a substitute to the effect that all owners of construction bonds shall on or before the 1st of January, 1877, surrender the same to the State Treasurer for cancellation, and that the President of the Road upon notification of the State Treas-urer shall issue certificates for shares of the State's stock in the proportion of one share to avery \$150. of one share to every \$150.

As appeared in the debate, this legislation was rendered necessary because of a Federal Court decree for the interest of these bonds from the

State.

Mr. Tate explained the bill of the Committee, and urged its adoption.
Mr. Boyd said that his bill and that of Mr. Tate sought to attain the same end, but by a different method. Both wished to save the State's interest in that road. He argued at length on the merits of his bill. Mr. Boyd's substitute was not

GENERAL GORDON and Hon. Mr. Lamar have produced different and opposite impressions at the North. To the extreme radicals they seemed to be the very embodiment of living treason flaunting their rebellious flag in the very faces of the truly loyal. To more judicious and calm observers, their presence was opportune, as missionaries of almost forgotten doctrines. It was right that they should have performed their mission, for while they outraged some prejudices they offer to a larger number the most convincing refutation of the general idea of Southern character, and living testimony, which their character sustains of the loyalty of the South, if not purposely driven to violence HOUSE VOTE ON THE PUBLIC

THE action of some sensible colored men in Wilmington, if generally followed, would make the civil rights bill practically a nullity. They publish a card condemning the conduct of certain colored men who presume to represent their race, who endeavor to force themselves into places where their presence is sure to provoke trouble. The card issued by these colored men above referred to, says, that they regard the law as only intended for the protection of colored persons in their legitimate rights. Unfortunately their views have no wide prevalence among their race who think the doors are now thrown open to every kind of unrestrained license. All that is needed on the part of the whites is forbearance. and patience will bring its rewards. Before long the North will be as restive under the law as the South was expected to be. Think of two colored ladies forcing themselves into a pew at Trinity church, Providence, R. I., already occupied by white ladies! The latter retired in very great disgust.

THE New York Herald is apparently ready to throw up his hat for the Republicans, and to grow wastful over their victory in New Hampshire. We do not know yet that is a victory for them. If it is, it is hardly a discredit to the Democrats, for they have had to contend against odds which might almost make a defeat honorable.

But if, as the Herald seems to think, and possibly justly, that the Democrats have attached so much consequence to the divisions, dissensions and offences of the Republican party that it has become careless and confident, we think it time that the party here should be looking more closely to its organization and escaping those disasters which the Herald seems to foreshadow. It is certain there is too much looseness among us, too contemptous a disregard of the first principles of success, too defiant an exercise of individual will, too impatient a submission to the counsels of prudence. In the face of a party compactly organized, watchful of every error of its adversary, sagacious to seize upon weak points and improve promptly every advantage, the Democratic party cannot afford to carry on a volunteer system of warfare. It must act under some recognized authority. And that authority is the will of the majority. free, their board being paid by the

and desirable that every boy should have the advantages of instruction, and it is urged that this can only be had by dependence upon and encouragement of the common school system, yet it is perfectly apparent that with the present resources of the common school fund, no schools can by any possibility be kept open longer than three or four months in the year, and support only a class of teachers of moderate equirements. Now every body knows in his own experience, that in almost every community there is some bright, ambitious lad craving for learning beyond his reach, aspiring to hopes he can never attain, except through just such provision as is proposed under the operations of this bill. Here is really the friend of the poor boy. Here is the light that is to illuminate his darkness. Here is the intellectual food that is to satisfy his longings. Shall he be denied?

Here is the opportunity to serve him quite as effectively as the son of the rich man-more, so for the latter can go elsewhere, while the former is stinted to the meagre aliment which satisfies his less ambitious fellows.

A bad little boy in Portland lita pack of shooting crackers, and threw them into the street to see them go off. One of Ike Batman's mules came along and swallowed them before they went off. The mule walked about fifteen feet and stopped. Things wasn't acting right inside. He began to taste the smoke of the fire-crackers. He laid his left ear around against his ribs, and heard something. It was them crackers having fun. The mule picked out about three and a half miles of straight road and started. A negro met him about a mile the other side of the alms-house going south, white with perspiration, with streams of shooting out of his nostrils, mouth and ears while his tail stuck straight up, and a stream of blue and green smoke about ten feet long fol-lowed in the rear. Ike found his mule sticking half way through a farm-house near Paddy's Run, still smoking. The man had got his family out and put 'em up into a lot of trees. Ike hauled his mule home when he got cool enough on a dray. The man is going to remove his house further back off the road, and his wife and oldest daughter will be baptized when the water gets warm

CONSUMPTIVES, TAKE NOTICE.—Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, alter being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are schenck's Sea Weed Tonic and Manfrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of Consumption may be cared.

We call the atiention of farmers to our justly celebrated Wilson "Cotton" and "Universal" turn plow and claim it has no equal as a Cultivator and Turn Plow. The Cotton Plow saving jully % of the labor, doing the work better, leaving the land in better condition and being mich caster to laborer and horse. The castings land in better condition and being mich easier to laborer and horse. The castings are made only from the best, new pig iron and last much longer than any other, in many cases two points only being required to make a full crop of cotton and corn. We give below a few of the many certificales from the best farmers of our country, who have fully tested them.

N U I N GUANO ORCHILLA A.A.

A TRUE BIRD GUANO.

Soluble Ammoniated South Sea

B. M. RHODES & CO., Office 82 South Street, Baltimore.

Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Pennsylvania at Philadelphia. Chemical Laboratory of the University of Pennsylvania.

I have analyzed as follows:—"I Sample of "Soluble Ammoniated South Sea Guano, prepared for Cotton by R. M. RHODES & CO., \$2 South street, Baltimore, 182 lbs.," which I found to contain—

MOISTURE, 15.53 per cent.
NOLUBLE PHOSPHORIC ACID, 4.32 " equivalent to 9.43 pr. ct. of Bone Phosphate of Lime PRECIPITATED, " 7.16 " 15.63 "
NITHOGEN, equivalent to 2.98 Ammonia.

2—Sample of "Orchilla Guano, A.A., B. M. RHODES & CO., Importers' Agents, Stouth street, Baltimore, 167 lbs. Curacao," which I found to contain— PHOSPHORIC ACID, - 28.86 pr. ct., equivalent to 58.64 pr. ct. of Bone Phosphate of Lime Both samples were certified to having been taken, sealed and sent by Thos. HARRIS HODGES, Notary Public, and were in perfect condition. F. A. GENTH.

Professors TONRY, LIEBIG and MALLET say of the Orchilla Guano : The Orchilla, which seems to be an organic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis, as well as a thorough examination of the mechanical condition, as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I see perfectly justified in recommending the Orchilla.

W. P. TONRY,

Prof. Anal. and App'ld Chemistry, Maryland-Institute.

The Orchilla Guano, which is truly an organic deposit, deserves well the attention of the farmer, not only on account of the high grade of its Phosphates of Lime and Alkaline Salt, but more particularly for the physical condition and texture in which this Guano is presented.

G. A. LIEBIG, Ph. D.

This material decidedly recommends itself to the attention of farmers by its large proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Peruvian Guano, Co ten Seed, Mill Refuse or other material affording Nitrogen when it is desired to combine the effort of Ammoniacal with that of Phosphatic Manure.

I am, gentlemen, respectfully yours,

J. W. MALLET, Charlottsville, Va.

RALEIGH, N. C., January 29, 1875.

From the Analysis of Dr. Genth there is no doubt of the high percentage of Phosphate of Lime in this Guano, and I endorse the recommendations of Prof. Mallert upon the above testimony of himself and Prof. Liebig & Tonky as to its physical condition that it offers a desirable source of Phosphoric Acid to Cotton Farmers and others who have the means of furnishing the Nitrog nized matter at home.

W. C. KERR.

MESSES B. M. RHODES & Co.:—The Orchilla Guano which I used on my plantation gave me perfect satisfaction, and my manager says it was equal to two others which cost me \$80 per ton.

THE MULTIPLICATION OF DISEASE.

Diseases multiply. One begets another. A trifling disposition may, therefore, originate a complication of dangerous maladies. Indigestion begets far more fermidable diseases; a multitude of aliments are traceable to constipation; lever and ague unhinges the entire nervous system, and is therefore the surce of the protean aliments which affect that portion of the human organization. Hosteller's Stomach Bitters, however, whether resorted to at the inception of these disorders of the stomach, bowels or liver, which give birth to the majority of diseases and disabilities, or taken when they have ripened into formidable maturity, are alike powerful to cure. The process of recovery is, of course, longer, when the malady has gained headway, but it is none the less certain. Dyspepsia, constipation, billiousness, kidney complaints and intermittent fever invariably yield to the operation of the great alterative and invigorant.

R. H. BRADLEY, Fayetteville St. PROCLAMATION. ENCOURAGE HOME INDUSTRY. Why will our Merchants and others buy their Cigars from the North instead of patronizing their own Factories at home. Why will they be imposed upon by those Nomads of Northern tirms, the Drummers, Whose expenses and extravagances they (our Merchants) have to pay out of the cabbage leaves, plugs, soaks, sparious mixeu Havanas, and infected rubbish, that they buy from them.

By purchasing their Cigars from the North, our Merchants enrich a class, that North, our Merchants enrich a class, that neither care for our community, and leave none of the money spent with them here, whits the Cigar Manufacturers of Railely it is a specific to the commercial to take a pride in building up home Manufacturers in their midst. There's no kind or style of Cigar that the Northern Factories make, that our Cigar Manufactorers cannot make also, and as for prices, we can give better satisfaction both in quality and cheapness, than the whole army of Commercial Agents that infest Raieigh in the interests of Northern Houses.

By encouraging Home Manufactures.

Agents this tracego in the increase of Northern Houses.

By encouraging Home Manufactures, our Merchants will see our Cigar Fuctories (instead of being mere buriesques of Factories of modest appearance) large in size, fourishing implenty of work, with twenty or thirty Cigar makers constantly making up stock for home consumption. Those men that our Manufacturers would employ would spend from three to four busined dollars weekly, thereby benefitting the community at large and keeping the money where it ought to be at home. The Merchants of Charlotte buy exclusively from their two Cigar Manufacturers, and shill Raleigh be antagonistic to Charlotte.

PLOW THACES,

RICHMOND, VA., February 25th, 1875.

The Guaushani Guano Company has seen fit to publish a card to the effect that our "Oat Island Guano" is of an inferior quality to their importations, and had been rejected by them. From the reputation of the signers of that card, we presume they did not know that this statement was false. We propose to prove to the satisfaction of that Company and of the public the following facts, vis:

1st. That their agent at the Islands attempted (awp Failer) to get control of deposits of Guano that were secured by a member of our firm who is now at the Islands.

2d. That our Cat Island Guano, according to the analysis of Professor White, of the University of Georgia, (who analyzed for the Guanahani Company,) is at least the equal of the Guano imported and sold by the Guanahani Company has spring in the outton sections of Virginia and North Carolina.

Our Guano shall stand or fall by the erucial test of the analysical chemist, and not by cards put out on the eve of the planting season. We will have each cargo analyzed before its receives our brand, or is offered the public, and we will publish the report of the chemist. We invite the Guanahani Company to publish the analyzes of each of the various lots offered or sold by them last spring, that the public may decide.

We have been embled to dvoid the mistakes that the inexperience of the Guanahani Company betrayed them into last year. We are not taxed with the enormous expenses for salaries, &c., paid by them, and with one of our firm on the Island, and one of the most experienced Guano men in the country as our General Agent, we are satisfied we can beat them in quality and price. We challenge them to meet us in the laboratory or on the plantation; and until they can compete with us successfully in these tests, their paper attacks will not hurt the best natural Guano (except Peruvian) yet offered to the public.

They write about "their standard!" Will they publish it? Why did they publish a standard last year, and withdraw it? We have taken proper steps in the Courts to pro

DEAR SIR-In reply to yours, I would say I am Undoubtedly of the opinion that in most NATURAL, GUANO: the forms of combination of the valuable elements present are TUPERIOR to those which are artificially produced in manipulated fertilizers, and although this cannot enter as a factor in determining COMMERCIAL values, it INCREASES the relative AGRICULTURAL value of the Guanos to a considerble extent.

Very truly yours

WHANN'S RAW BONE SUPER-PHOSPHATE is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. On

Cotton, Corn and Tobacco

WHANN'S PHOSPHATE has produced the most gratifying results, in many instance for exceeding the most sanguine hopes of those who have used it.

We offer this renowned fertilizer for the coming sesson, assuring our friends that the same high standard which has always characterized it shall be rigidly maintained.

Green Level, Wake County, N. C., Nov. 25, 1874.

Messrs. Williamson, Upchurch & Thomas:
Gentlemen:—The ton of Whann's Raw Bone Super-Phosphate purchased of you last Spring made the best crop of cotton I ever made, and I consider it decidedly the best fertilizer I ever used, I want it again next season.

Yours truly,

Louisburg. N. C., Nov. 9, 1874. Measrs. Ring, White & Shaw:
Gentlemen:—In reply to your inquiry at to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am satisfied that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,
JUHN E, THOMAS.

Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the season dry, but the crops surpass door expectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLA, Supt. Oxford, N. C., Dec. 15, 1874,

Louisburg, N. C., November 7, 1874. Messrs. King, White & Shaw:

I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer.

MIDNIGHT DISPATCHES. Civil Rights in Montgomery, Ala-

MONTGOMERY, ALA., March 12.— The complaint of four negroes against Cal Wagner for not admitting them to his Minstrel entertainment was heard before U. S. Commissioner Dimmick. The defendant's counsel moved to quash the complaint for imperfection in the complaint in va-rious particulars and on the ground of the unconstitutionality of the Civil Rights bill. The counsel cited the Slaughter house case and Mrs. Myra Bradwell's case. U. S. Dis-srict Attorney McAfee for the com-plaint, cited the case of Luther vs. Borden, and he contented that this was a political question. At 4 p. m. the Commissioner quashed the complaint, but gave no opinion in the matter. It is understood that the negroes are trying to get up a complaint that will stick.

FROM WASHINGTON.

Pinchback Will Not go In-Kellogg WASHINGTON, March 12.-Alcorn will vote for seating Pinchback. Confirmation of Rankin as Pension

Agent at Vicksburg was made. Nomination of Boswell as P. M. of Camden, S. C., was made.

The Senate had two hours wrangle over business in an Executive session to-day. They will vote on Pinchback Tuesday. His rejection is almost certain. The last part of Morton's resolution declaring Kellogg the legal Governor of Louisiana

will not come up. Ex-Congressman White, of Ala. declines the Assistant Attorney-Generalship.

AAAL GHEBING TORACCO, James Acid. IMPORTED ONLY BY THE

GUANAHANI GUANO COMPANY.

PETERSBURG, VA.

In offering this PERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion, we formed, and expressed last season based on its Chemical Constituents, he been most satisfactorily borne out by the test, by which all Pertilizers must be Judged, that of the Plantation. Last season, owing to the lateness at which we commenced importing, we were forced to put for Guano on the market at once, but now having continued our importations during the summer and fall, and having large and well ventilated Warehouses in the city of Petersburg and at City Point, we are enabled to put our Guano on the market, in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

We solicit a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGEN its. Having nothing to conceal, we made no innovation on established usage, by publishing those letters received unfavorable to our Guano, but careful inquiry in many cases proves that the cause of its failure was not owing to any fault in the Guano, but to those far beyond our control. We live frequently heard the same complaints of its kindred Fertileser, Peruvion Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme Western counties of North Carolina, justify us in claiming place for our Fertilizer Superior to many, and sec in its Nun E.

We confidently expect the continued patronage of the Agricultural Community and be exertion will be spared on our part to make
